

## **Faculty-Student Interaction & Department Overview Session for I-Semester B.Tech. Students, 2025-2026**

The Department of Chemical Engineering, MNIT Jaipur recently organized an interactive orientation session for the newly joined B.Tech. first-year students to welcome and provide them a comprehensive overview of the department's academic and research ecosystem.

The event served as a platform for faculty-student interaction, allowing students to familiarize themselves with the department's academic structure, laboratories, and research activities. Students were introduced with the diverse research areas of faculty members and encouraged to engage in cutting-edge work during their academic journey.

Students were also given an overview of departmental facilities, curriculum structure, and laboratory infrastructure. The session included information on placement support, career development resources, and various student-centric initiatives undertaken by the department and institute.

Encouraging and motivational words from faculty members inspired the students to make the most of their time at the institute and to pursue excellence both in academics and beyond. The session concluded with an interactive Q&A, where students enthusiastically engaged with the faculty, expressing curiosity and excitement for the road ahead.

This initiative reflects the department's continued commitment to promoting an inclusive, supportive, and academically enriching environment for its students.
