Cybersecurity Intelligence and Ethical Hacking Practices

20 Apr – 01 May 2026

Faculty Development Programme
Electronics & ICT Academy under aegis of

Ministry of Electronics and Information Technology Government of India

meity.gov.in/content/schemes-projects

Chairman, EICT Academy &
Director MNIT Jaipur
Prof. Narayana Prasad Padhy

Chief Investigator, EICT Academy
Prof. Vineet Sahula, ECE

Coordinator, EICT Academy
Dr. Satyasai Jagannath Nanda, ECE

Co- Chief Investigators, EICT Academy
Prof. Lava Bhargava, ECE
Prof. Pilli Emmanuel Shubhakar, CSE
Dr. Ravi Kumar Maddila, ECE

Objective (Electronics & ICT Academy-Phase II)
1)To conduct specialized FDPs for faculty/mentor training in line with the vision of MeitY by promoting emerging areas of technology and other high-priority areas that are pillars of both the "Make in India" and the "Digital India" programs.
2) To promote synergy and collaboration with industry, academia, universities and other institutions of learning, especially in emerging technology areas.
3) To support the National Policy on Electronics 2019 (NPE 2019) which envisions positioning India as a global hub for ESDM sector, including MeitY Schemes/policies such as Programme for Semiconductors and Display Fab Ecosystem; India AI; National Programme on AI, Production Linked Incentive Scheme for IT Hardware & Large-Scale Electronics Manufacturing; EMC; SPECS; Chips to System (C2S); etc.
4) To promote standardization of FDPs through Joint Faculty Development Programmes.
5) To support the vision of the National Education Policy (NEP 2020), which mandates that Indian educators go through at least 50 hours in professional development programmes per year.
6) To design, develop & deliver specialised FDPs on emerging technologies/ niche areas/ specialised modules for specific research areas for Faculty in Higher Education Institutions (HEI), besides FDPs on multi-disciplinary areas connected with ICT tools and technologies and other digital hybrid domains, covering a wide spectrum of engineering and non-engineering colleges, polytechnics, ITIs, and PGT educators.

An intensive 40 Hours Training Programme in online mode is being organized for faculty and doctoral students of engineering and technological institutions. It is also open to working professionals from industry/organizations. The main theme of training program will be oriented around exploring the state of the art methods for Cybersecurity Intelligence and Ethical Hacking Practices

Experts/Speakers-

Speakers from IITs, NITs, and IIITs, together with practical perspectives from industrial leaders.

Programme Modules:

Module 1: Foundations & Environment Setup, .Networking Essentials: OSI & TCP/IP models, IP addressing (IPv4/IPv6), DNS, DHCP, and common ports/protocols. Operating Systems: Linux command-line mastery (Kali/Parrot OS), Windows internals, and basic Bash/Python scripting for automation.The Hacking Lab: Cybersecurity Fundamentals: The CIA Triad (Confidentiality, Integrity, Availability)
Module 2 : Information Gathering & IntelligenceThis phase focuses on the "Intelligence" aspec collecting data to identify high-value targets. Footprinting & Reconnaissance: Passive vs. active recon, Google Dorking, and WHOIS lookups.OSINT (Open Source Intelligence): Using tools like Maltego, Shodan, and Recon-ng, Vulnerability Assessment, Scanning Networks
Module 3: Ethical Hacking Practices (Offensive), System Hacking: Password cracking (brute-force, dictionary attacks), privilege escalation (Linux/Windows)Web Application Hacking: Mastering the OWASP Top 10 (SQL Injection, XSS, Broken Access Control, SSRF) using tool, Malware Analysis, Social Engineering, Wireless & IoT Security
Module 4: Cybersecurity Intelligence & Defense Threat Intelligence: (Indicators of Attack), mapping adversary behavior with the MITRE ATT&CK framework, SOC Operations: Monitoring traffic using SIEM tools (Splunk, ELK Stack, Azure Sentinel), AI in Cybersecurity, Cloud Security
Module 5: Capstone & Reporting, Incident Response, The lifecycle of a breach—from detection and containment to recovery Professional Reporting: ,Capture The Flag (CTF)

Programme Coordinator:

Dr. B V Phani, IIT Kanpur (PC), 91 512 679 6935		Prof. M P Singh, NIT Patna, 91 9431200106
Dr. Dinesh Tyagi , MNIT Jaipur, 9549658130	fdp.academy@mnit.ac.in	Dr. Shyam Singh Rajput, NIT Patna, 9009873213

Registration:
Registration is open to faculty, working professionals, industry persons, doctoral, postgraduate and graduate students from India and rest of the world. Participants will be admitted on first-come first-served basis. Register online at–(http://online.mnit.ac.in/eict/)

Registration Fee:

Mode of programme	Academia (faculty/Students): India/SAARC/Africa	Others: India/SAARC/Africa	Rest of the world
Online	Rs. 500/-	Rs. 1000/-	US $ 60/-

A) Fee once paid will not be refunded back.
(B) The fee covers online participation in the programme, tutorial notes and examination, certification charges etc.
(C) The registration amount may be paid through online mode - NEFT / UPI / Cards / SWIFT, provided at the registration portal.
(D) Detailed schedule will be shared after receiving registration form.

MNIT Jaipur one of the oldest NITs, the institute has a rich heritage of sixty years producing world class engineers, managers, architects and scientists. Ranked 43rd nationally in the NIRF ranking-2024 (Engineering), the institute offers learning opportunities for undergraduate, postgraduate students, and researchers in various domains. Having a lush green campus of over 317 acres within the heart of the pink city, close to Jaipur International Airport, the campus offers a safe and lively environment. A world class teaching infrastructure, state-of-art laboratories welcome you at the campus. The institute has a vision to impart education of international standards and conduct research at the cutting edge of technology.
